

Remarks

Claims 1-37 were originally filed and were the subject of the prior Office Action and prior Notice of Non-Responsive Amendment. Claims 8, 18, and 27 are hereby amended to correct minor grammatical errors in accordance with the Revised Amendment Practice of 37 CFR §1.121.

The sequence identifier inserted after "GVGVGP" in claim 10 was inserted in error. Claim 10 is hereby presented as originally filed, without amendment.

The substitute specification filed with the previous Response was submitted without a marked-up copy. A marked-up copy of the substitute specification is submitted herewith. The substitute specification has been amended to recite sequence identifiers after all references to GVGVP and after other sequences in the specification.

Please note that the subject specification originally consisted of pages 1-277 (plus Figures 1-42) as filed (from the parent case, which was a 371 application). The specification now consists of pages 1-106. The substitute specification includes no new matter.

The applicants believe that this application is in condition for allowance, and such action is earnestly solicited.

The Assistant Commissioner is hereby authorized to charge any fees under 37 CFR §§1.16 and 1.17 as required by this paper to Deposit Account 19-0065.

The applicants invite the Examiner to call the undersigned if clarification is needed on any of this response, or if the Examiner believes a telephonic interview would expedite the prosecution of the subject application to completion.

Respectfully submitted,
